

Reverberate

Intro

Interlude Brass

Verse 1

Get down, drift with the rhythm, feel
Voices blend into a dub panorama
City lights flicker, low end heavy like thunder
Shadows move quick, we dive under

Turn up, ride on the current, flow
Visions rise under moonlit Sahara
Neon burns brighter, the pulse pulling stronger
Dreamers unite where the borders grow softer

Chorus (half)

Chants arise, let the visions glow
In the heart of the night, this is how we grow

Interlude Brass

Verse 2

Step in, run with the spirit
Hear echoes spring from the hills of Oaxaca
Colors explode in the heart of Lucia, boomshaka-laka
A puff of Maria, (the night turns clearer)

Tides beat time in this lover's wave
Rivers run deep in the midnight haze
Hearts synchronize where the rivers run
Bliss reverberates in the gold of the sun

Chorus (full)

Chants arise, let the visions glow
In the heart of the night, this is how we grow
Spirits rise, let the heavens show
In the arms of the light, deeper truths we know

Verse 3

Sombras bailando un tango en la calle,
Sueños despiertan en mundos sin valle,
Me acarician memorias lejanas, fugaces,
El río susurra secretos que arman paisajes.

Chorus (full – repeat)

Chants arise, let the visions glow
In the heart of the night, this is how we grow
Spirits rise, let the heavens show
In the arms of the light, deeper truths we know
